ADVISORY COMMITTEE

Our designated COVID-19 Compliance Team is responsible for establishing our COVID-19 safety protocols. Our team has established protocols that meet those of the LA County Department of Health, as well as the State of California reopening guidelines. We will be working together with our staff and children to ensure that they receive education about COVID-19.

Our COVID-19 Compliance Team:

- Rabbi Shlomo Goldberg
 - Rabbi Eliezer Eidlitz
 - Rabbi Yosef Bondi
 - Mrs. Jina Eyshi
-

SAFE ENTRY

Visitors and Health Screenings

All entering the campus must complete a daily COVID-19 health screening through the PikMyKid app. The screening includes questions regarding cough, shortness of breath or fever. Symptoms include a fever of over 100.4 taken orally or the equivalent, chills, cough, sore throat, shortness of breath, loss of taste or smell, a runny nose that is not due to allergies, diarrhea, fatigue, muscle pain, and/or a significant headache not due to a migraine. If an employee or child feels sick he or she will be advised to go home for the day.

SOCIAL DISTANCING THROUGHOUT THE DAY

Our YAYOE campus is situated on three acres of land, with many large designated zones of outdoor space. These zones include our outdoor lunch area, play/recess area and courtyard. Additionally, our hallways, locker areas, staircases and entrances are all situated outside.

This large airy campus is ideal to enable social distancing. Our rooms will be set up to enable social distancing. In rooms where 3 feet of distance is not possible, the LA County Department of Health recommendation of physical barriers will be used to minimize close contacts. We are also reconfiguring our therapy and tutoring rooms to enable proper distancing. In addition, outdoor and indoor space have been cleared for use.

MASKS + PERSONAL HYGIENE

MASKS

Everyone is required to wear a face covering inside the YAYOE campus. Alternative protective strategies will be adapted to accommodate those who cannot use or tolerate cloth face coverings.

HYGIENE

Educating about and reviewing proper handwashing, hygiene, and safe mask wearing will be done on a regular basis. Required handwashing times are being built into the schedule. Staff will emphasize these procedures in their morning meetings and throughout the day. Hand sanitizer will be available in every room and dispensers are located throughout campus.

PROTECTING OUR ENVIRONMENT

Cleaning, Sanitizing, Disinfecting and Ventilation

We have updating the facility in the following ways:

- Remote sanitizer dispensers are installed throughout the campus.
- Sanitizer and sanitizing wipes are available in every room.
- We have hired a company to oversee and sanitize the campus constantly throughout the day.
- HVAC and exhaust systems have been serviced and set to allow for maximum fresh air flow throughout the building.
- We have added bottle fillers throughout the campus to be used instead of water fountains.
- Plexiglass partitions are installed in the front office, and all public areas.
- Large, clear hygiene and protocol reminders, in the form of posters, floor markers, will be clearly visible throughout campus including outside restrooms, in hallways, by sinks, water dispensers, doorways, etc.

Common areas will be disinfected frequently. Disinfectants will also be readily available to staff for their use.

ARRIVAL AND DISMISSAL

Drop Off and Pick Up Procedures

Adjusted hours will allow for a staggered drop off and dismissal and proper health screenings. Drop off will begin at 8:00 am and dismissal is 3:45 pm for Yesod-4th and 4:30 pm for 5th-8th.

- **Morning Drop Off:** Gates will be open from 8:00 am and will be closed at 8:30 am.
- **Afternoon Pick-Up:** Gates will be open from 3:30 pm and will be closed at 4:00 pm, and reopens at 4:20 pm and closes at 4:45 pm.

The PikMyKid system manages all aspects of camp dismissal and drop off. This requires a device, such as a smartphone, to safely check in and out children from our care. Children may be dropped off by car, parent at the gate, or independently. Children may be picked up by car or leave campus independently.

YAYOE families will continue to be able to carpool if they choose. We ask that families inform us by emailing the front office (dzisblatt@yayoe.org) of your carpool, and that you understand that all children in the same carpool are contacts of one another, which becomes important if someone in the carpool is sick.

DROP OFF

It is the responsibility of parents to have the health screening completed prior to children being allowed on campus. Staff members must ensure that each child has had a health screening, answering health questions in PikMyKid.

- Any child that has not had the health screening completed by his/her parent, must be screened by a staff member upon arrival.
 - Students that answer “Yes” to any of the health screening questions will not be admitted, and will have to contact a member of our COVID-19 compliance team prior to returning.

LATE ARRIVALS

Children arriving after 8:30 must have a parent call the front office prior to entering campus in order to complete the health screening survey.

WALKERS/BIKERS

- Children will line up at the gate to be checked in by a staff member.
- Staff members will be stationed at each gate for proper check-in and dismissal.

POLICY IN THE CASE OF SYMPTOMS, ILLNESS, OR TRAVEL

SUSPECTED CASES

Anyone who is suspected to have COVID-19 or has COVID-19 symptoms should stay home and immediately inform a member of our COVID-19 response team. Our team will then inform you of the best course of action to take.

If either a staff member or child on campus is suspected of having COVID-19, he/she will be sent to a safe space on campus to quarantine, where the staff member or student can wait until he/she is picked up.

CONFIRMED CASES

If a sick individual is confirmed positive for COVID-19 he/she must stay home until our COVID-19 response team gives him/her the clear to return to campus based on the LA Department of Health Recommendations.

TRAVEL AND OTHER SITUATIONS

Families and staff are required to inform a member of the COVID-19 compliance team of any travel. This includes anyone traveling right before the return to school.
